

6-23-05

Dear Andrew,

I've had such a great experience working for you. Although teaching will not be my profession, I have learned a tremendous amount of teaching techniques that will definitely come in handy in the future. I am very fortunate to have had the opportunity to take Tae Kwon Do while living here; I wish I could have begun sooner. I love this martial art and plan to continue practicing until I reach my ultimate goal of Black belt (someday).

You have taught me a great deal of useful lessons that will benefit me, not only in Tae Kwon Do, but outside the Do Jang, too. Thank you. I've acquired a lot more patience with other people, as well as myself, and learned that any goal can be reached by persistence and practice.

I have really enjoyed working and practicing at your Do Jang. Thanks again. I wish you and Miss Catherine the best of luck. Take care.

Thanks again,

Tyllila Best
